

**REMARKS**

Claims 1-10 are pending in this application. By this Amendment, claims 1 and 2 are amended to more clearly present the features described therein, and the specification is amended to cure informalities. Thus, no new matter is added by this Amendment.

**I. Claim Amendments**

The Office Action suggests amending claim 2 to improve the clarity of the claim and indicated that claim 1 should be rewritten in idiomatic English to clearly re-present the elements in a clear fashion.

To this end, Applicants herein amend claims 1 and 2 to more clearly present the features described therein.

**II. Objections**

The Office Action objected to the specification due to alleged informalities and objected to the drawings because reference number 34, shown in Fig. 2, is not mentioned in the specification.

To overcome these objections, Applicants amend the specification as suggested by the Examiner. Applicants submit the requirements of the Patent Office have been met.

Reconsideration and withdrawal of the objections is thus respectfully requested.

**III. Conclusion**

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance of claims 1-10 are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
